Clover® Flex

Mobile payments in the palm of your hand

Clover Flex¹ is a mobile payment device that takes nearly any payment type and works seamlessly with other Clover POS solutions, giving you the flexibility you need to run your business. And not only that, it comes with a protective sleeve and a host of other features:

Built-in touchscreen and printer lets you take signatures and issue receipts on the spot.

Integrated scanner and camera can help manage your inventory and speed-up checkout.

Wireless LTE and Wi-Fi® capability means you can take payments virtually anywhere.¹

Up to eight-hour battery life helps you go longer between charges.

Take payments when you're offline and they'll post when you reconnect.²

TransArmor® Data Protection helps protect your business from the impact of a data breach.³

Cloud-based system with real-time reporting helps you analyze your business performance.

Accepts credit & debit cards (swipe and EMV® chip), plus contactless payments so your customers can pay their preferred way.

More than a payment device.

The Clover App Market features more than 200 apps⁴ that can help you manage a range of areas of your business, including:

- Inventory tracking
- Accounting and reporting
- Employee scheduling
- Gift card services
- Marketing and surveys
- Website and online store creation
- Sales and discounts
- Rewards and loyalty programs

All trademarks, service marks and trade names referenced in this material are the property of and licensed by their respective owners. Merchant Services are provided by Bank of America, N.A. and its representative Banc of America Merchant Services, LLC. Banc of America Merchant Services, LLC is not a bank, does not offer bank deposits, and its services are not guaranteed or insured by the FDIC or any other governmental agency.

¹To enable your Clover Flex to run on a cellular data plan, merchant must have a data plan through T-Mobile® or AT&T®. The device comes with an AT&T SIM card and merchants can enroll in an AT&T data plan through the Clover App Market for an additional monthly charge. To enable the device with a T-Mobile data plan, merchants must separately purchase a T-Mobile SIM card and enroll in a T-Mobile data plan. Clover Flex does not have check acceptance capabilities.

²Merchant must follow appropriate procedures to obtain a valid authorization. Merchant will be responsible for all chargebacks.

³Clover systems include TransArmor Data Protection for encryption and tokenization services. TransArmor Data Protection is not a guarantee that your systems will not be breached or cause you to be compliant with the Payment Card Industry Data Security Standard or Card Organization Rules.

⁴Third party services are provided by third party developers through applications available in the Clover App Market. Bank of America Merchant Services does not provide, and is not responsible for, applications from third party developers or their third party services. The number of third party apps to which you may have access via the Clover App Market may vary by software plan.
